CPUC Update
December 10, 2018

Princeton University
Campus Plan
A Framework for Development through 2026 and Beyond
A Comprehensive Plan

- A framework to guide campus development over the next 10 years in the context of potential needs and developments over 30 years and beyond.
- Encompasses all University-related lands, including lands south of Lake Carnegie in West Windsor.
- In addition to land use and landscape, addresses issues related to sustainability, movement patterns through and around campus, and infrastructure.
- Identifies opportunities to improve already developed portions of the campus, especially east of Washington Road, and south of Lake Carnegie.
Proposes locations for priority projects identified in the 2016 strategic planning framework

- A new residential college or colleges to permit expansion of the undergraduate student body by 10 percent.

- New and improved facilities to support teaching and research in engineering and environmental studies.

- Space to accommodate academic partnerships with corporate, government and nonprofit sectors in an expanded innovation ecosystem.
Architects Selected

Residential Colleges
  Deborah Berke Partners

Environmental Studies and School of Engineering and Applied Science
  Ennead

Lake Campus Master Plan
  SOM / JCFO

Lake Campus Graduate Housing
  American Campus Communities and Mithun

Racket Center, Softball, Soccer and Support Facilities
  Sasaki

University Health Services
  WRNS

New Princeton University Art Museum
  David Adjaye / Cooper Robertson
Key Steps and Governance

- President’s Advisory Committee on Architecture
- Value Proposition and Preliminary Project Objectives
- Building Committees, Executive Sponsor, Provost
