

**Draft Proposed Recording Policy
For Council of the Princeton University Community Meetings
Presented by Provost Rexford on behalf of the Executive Committee**

Chapter 10

10. In order to promote the freedom to share ideas, video recording is prohibited at all meetings of the Council of the Princeton University Community. Audio recording and still photography are permitted. Those in violation of this policy will be asked to stop recording. If repeated requests to cease recording are necessary, appropriate disciplinary action will be taken. If it is discovered that meetings were recorded secretly (clips of the meeting discovered on social media sites – for example), appropriate disciplinary action will be taken.
